Qumulo Advanced Training Services

Overview & benefits

Adding a new storage system to your environment can be daunting, and ramping everyone up on the new technology can take time. Qumulo advanced training services will quickly bring your team up to speed on how to manage Qumulo's file system and integrate it into their environment.

This on-site training session was developed in house and is led by Qumulo instructors. It's designed to answer all the questions your storage administrators might have, and the questions they haven't even thought of yet.

Training Description

This is a hands-on training session that covers all aspects of administering Qumulo software, from building a cluster to enforcing quotas.

Duration

One eight-hour session, onsite for up to 10 students.

Training session outline

The training will cover:

- Qumulo technology and how it works
- Hardware and networking
- Installation and maintenance
- Shares, exports, and quotas
- Snapshots and continuous replication
- Data analytics (machine intelligence)
- Qumulo's API
- Support via Qumulo Customer Care

Requirements

- Conference room with projector
- Participants to bring laptops with Qumulo OVA downloaded
- Internet access

ABOUT QUMULO, INC.

Qumulo is the leader in hybrid cloud file storage, providing real-time visibility, scale and control of your data across on-prem and cloud. Qumulo's real-time analytics enable customers to understand their storage at a granular level, detect bottlenecks and accelerate performance. Built to scale across data center and cloud, Qumulo enables programmatic configuration and management of usage, capacity and performance. Qumulo's innovative approach continuously delights customers with new capabilities, 100 percent usable capacity and direct access to experts. For more information, visit www.qumulo.com.
