

Qumulo Sub-Processor List

Third-parties we engage to deliver our services, who may handle personal data

Qumulo may engage third-party data processors (“Sub-Processors”) to provide services to our customers as described in the terms of service at <https://qumulo.com/terms-hub/>. Please note that not all Sub-Processors are used in the provision of all services we provide and some may only be involved in assisting with the provision of specific services.

As our business and services evolve, we may add, remove, or retain the services of additional Sub-Processors and update information about our Sub-Processors on this webpage if we determine their processing activity will improve or enhance our ability to deliver our services to you. We will periodically update this page to reflect changes to our list of Sub-Processors. If you have any questions about our subprocessing activities, please contact dataprivacyoffice@qumulo.com.

Thank you for your continued trust and support as we strive to provide you with the best possible privacy and data protection.

Qumulo Sub-Processors
